

Deep Space

Exploration Society

A Non-Profit Corporation Dedicated to the Excitement of Hands-on Space Exploration

8th Annual Deep Space Exploration Society Open House – Public Invited

Saturday Sept 16, 2023 at the Plishner Radio Telescope Site, located at 9301 County Rd 20 (Delores Lane), 5 miles south of Haswell, CO.

In addition to demonstrating the many capabilities of our 60 foot radio telescope, we offer a STEM and Amateur Radio event with several optical telescopes on site for viewing the skies day and night.

A ham radio station using the DSES club call sign, KØPRT (Plishner Radio Telescope) will be on HF and VHF radio bands. Using the big dish we will also be working Earth-Moon-Earth (EME) contacts on 1296 MHz – hear your own voice bounced off the moon!

We have lots of parking. A BBQ lunch* will be available on Saturday Noon – 2:30pm. We will have several coolers of cold bottled water and sodas. Be prepared for hot temps during the day and possible thunderstorms during late afternoon or evening. Hats, sunscreen, bug repellent, camp chairs and shoes for mud are recommended.

* Pulled Pork and sides with dessert: Donations \$14 - Adult, \$7 - 12 and under (cash or local checks). Benefit for Kiowa County 4H Shooting Sports and Town of Haswell.
