## NEWS BYTES

Colorado Council of Amateur Radio Clubs (CCARC) - New Repeater Maps Available  
 CCARC is proud to announce that the new CCARC Colorado State Repeater Maps are now available. The maps are nicely formatted, printed on waterproof Tyvek, including frequencies and access information for most repeaters in the state. These maps now have a retail price of \$3.00 each. Unfortunately, Tyvek is oil-based and as such has seen a large increase in price since that last maps were printed in 2003. Individuals may purchase the maps at <http://www.ccarc.net/> for \$3.00 plus a modest amount to cover postage and packaging. They are also available at HRO in Denver.

Frank Drake, Jr., editor of the Las Vegas Radio Amateur Club and past Ø-Beat editor, would like to remind PPRAA members to check out their web site at <http://www/lvrac.org> and sign up to receive email notifications for their monthly newsletter. Some of the members of LVRAC have been members of the PPRAA, and vice versa. Frank said there is something about the sunshine and propagation that keeps members moving from here to there and back again.

## AMATEUR RADIO LICENSE EXAMINATIONS

The Pikes Peak Radio Amateur Association Volunteer Examiner (VE) team holds testing sessions at 9 AM at the Colorado Technical University, 4435 North Chestnut (just west of I-25 and just south of Garden of the Gods Rd). Exam fee is \$14.00 for 1, 2, 3, or all 4 elements at a session.

Checks should be payable to ARRL/VEC. For further details and a list of what to bring, contact Erik Mugele KGØXE or Dennis Major NØABC, or visit the PPRAA web site. Mark your calendars:

## AND THE WINNER IS...

The fun activity for this month's PPRAA monthly meeting was Morse code keys. Six people brought a variety of keys for show and tell. The display covered every kind of key used by amateur radio operators from straight keys to bugs to iambics. Some keys were home-built or modifications of well known keys. The ingenuity of hams never ceases to amaze and astound. Everyone enjoyed seeing and hearing about the keys. Doug Nielsen, N7LEM also brought a key but was not available at the photo session.

From L to R: Jim Harris ABØUK; Mike Anderson WV7T; Dan Scott KBØPPM; Ralph Rohrig KIØNK, and a very shy ham who left without giving his name and call sign.

## NONPROFIT STATUS

The PPRAA is a federal 501(c)(3) nonprofit organization, and welcomes all contributions. Your contributions or donations may be tax-deductible.

Need someone to take over bringing refreshments to the club meetings. Mike WV7T has the coffee pots and supplies. Anyone interested in volunteering let Mike know. Would like to form a committee to plan contests/special events. Inventory still needs to be done on club assets. Suggestion of changing Hammy award to a smaller trophy, a certificate, or starting with a new one each year.

Presented Hammy to Christopher NC6T for his year of dedicated service as club President.

The meeting was adjourned at 8:17 PM.

## PPRAA PRESIDENT'S CORNER

Greetings to the PPRAA

Can you believe that the holidays are here again? It doesn't seem that long ago I was putting up the Christmas lights on my house and now here I am getting ready to do it all again. The downside of putting up the lights is that they mess with the SWR on my horizontal dipole I have hidden under the eaves of my house, so from the end of this week until January I will be using the vertical antenna. At least the SSB sweepstakes is the week before I put up the lights.

I did have fun again this year during sweepstakes. It was amazing to me how much I have learned about operating in a contest as compared to my first sweepstakes last year. I exceeded my QSOs from last year even though I had to miss part of the evening on Saturday and spend some time at work on Sunday. I enjoy operating during contests, but I really need to get a headset and foot operated PTT so I don't have to key the microphone with one hand and type with the other. I know that a few members of the club were active during this contest so let me know how you did. The ARRL 10-meter contest is coming up on December 9-10 and I have never really used the 10-meter band so I'll most likely give it a try.

This month has also brought us the new R&O from the FCC which will take effect on Dec. 15<sup>th</sup>. There is a lot of information on the ARRL website about this order so I'm not going to go into detail here. Please visit [www.arrl.org](http://www.arrl.org) for more information. Jim, ABØUK has also put out a description of the changes on the reflector.

That's about all I have for this month. I want to close this message wishing all of you a great Holiday Season and my warmest wishes that everyone has a great 2007.

Thanks and 73,

Mike, KØMLA
