

VOLUME 63 ISSUE 1

ARRL AFFILIATED-SPECIAL SERVICE CLUB

January 2013

Well folks if you are reading this then we survived the end of the world! Oh well, better luck next time. The Mayans need a new calendar!

You will notice a bit of a new look for Ø-Beat. A suggestion was made about the columnized format that was a bit hard to follow. **Let me know what you think.**
This is just a first try and will get even better.

Monthly Ham Breakfast

LOCATION

Manitou Pancake & Steak House

26 Manitou Ave

Saturday, 5 January 2013

Time is from 8:00-9:30 AM

All are warmly invited to come on down and join us!

January Club Meeting

The January 9th club meeting will be at the IHop on Stetson Hills Blvd (just west of Powers Blvd). 5749 Stetson Hills Blvd.

PPRAA Christmas Party

The annual PPRAA Christmas Party was held on December 12th. The turnout was almost standing room only. Lots of good food and lots of communicating, that's what Hams do. There were lots of gifts drawn from the monthly club meeting white tickets.

The big winner this year was Rhoda Anderson, KB2BZY, who won an Icom IC-T70a AND Yaesu VX-3R handheld radios.

Rhoda and I wish to thank the board and club members for the great gifts at the party. She has never won anything..... then to win twice, she was ecstatic!

Licensing

New license classes Technician-General-Extra and hands-on training will begin in April 2013.
E-mail WV7T @ ARRL.NET for pre-registration.

Hands-on Training

The hands-on training will use training modules to teach basic electronics, trouble shooting, the use of oscilloscope, multi-function meters, audio signal generators, and antenna analyzer.

Study Materials

Licensing and technical books are available at Centennial Electronics.

Are there others out there doing classes or tutoring? Please let WV7T know.

New Antenna **Crutchzilla II: The Beam**

There were no measurements made or tuning. The boom is the longest piece of tubing found. The Reflector crutches happened to be just a bit longer than the Driven Element. The antenna is tuned by a MFJ 969 tuner in the shack. On Field Day 37 states were worked with the Driven Element as a dipole and now as a beam contacts have been made on 10m and 40m. The antenna seems to work better near the ground rather than elevated.

Next month Isotron antennas

ARRL Affiliated Clubs-Outgoing QSL cards

ARRL affiliated-club stations may use the service when submitting club QSLs for its members in bulk ("pooling" their members cards together in one package) by indicating the club name inside the package. Club secretaries should check club affiliation on the ARRL web site to ensure that their affiliation is current. In a "pooled" package, each club member using this service must also be an ARRL member. Cards should be sorted "en masse" by prefix and a proof of membership should be enclosed for each ARRL member. QSLs for unaffiliated club calls may also be sent via the outgoing bureau to foreign destinations if the trustee of the club call is a member in good standing. The trustee's proof of membership must be included with the club call-QSLs.

Ø-BEAT JANUARY 1983

Frank WBØPAJ writes an article about the ever increasing number of communications satellites in orbit, their frequencies, antenna beams, and problems associated with space communications. The club is meeting on the 2nd Wednesday of each month at the First United Methodist Church, 420 N. Nevada, at 7:30 p.m. The December meeting was Home Brew Night, and with no pressing business the program began immediately. Prizes awarded to NØCYR, NØDV and AAØL. Ed Means WØVO will talk at the January club meeting on AMSAT and an upcoming satellite launch. Upcoming National Sports Festival in June looks like a great public service opportunity. Charge up those batteries. Lee Sublet (sp?) WØBLD (correct call?) has a new computer bulletin board BBS. Everyone is welcome. The board needs to have a current list of standing committees, and is looking for people to help fill the chairman positions. Several don't have chairmen: education, membership, activity. Grand prize for the next swapfest will be a Commodore VIC-20 computer. A winter swapfest will be held February 18, 19, and 20 at 637 Winters Drive.

PPRAA / Pikes Peak Ten Ten / Thursday Evening Net

Please join us for the Thursday Night 10-meter net. We meet at 7:00 PM (Local) on or near **28.390 Mhz** USB. The goal of the net is for Technicians through Extra class operators to enjoy a weekly on-the-air chat, and experiment with various transmission modes. The outcome of the net has been a great success. It gives new operators a better understanding of radios, filter usage, mic gain, transmission line..etc.

We give out 10-10 numbers!

SIX Meter Net

Thursday evenings after the 10 meter net on **50.125** Mhz USB.

MARC VE EXAMS

(January, March, May, July, September, November)

The Mountain Amateur Radio Club (MARC) VE Team conducts VE exam sessions in Woodland Park every odd month at 10 am on the first Saturday in the Community Meeting Room of the Woodland Park Library, 218 East Midland Avenue. The MARC VE Team is affiliated with the ARRL/VEC and examinations for all classes of license will be offered.

Full information, including driving directions to the Woodland Park Library, is available under “VE Sessions” on the MARC website at <http://www.nx0g.org/ve.html> or contact Wes Wilson (KØHBZ) at k0hbz@arrl.net or call (719) 687-8758.

If attending, please BE SURE to bring the following items to the session:

1. A valid **PHOTO ID**, driver's license preferred (if you do not have a valid photo ID, please call for alternative identification requirements).
2. Your **SOCIAL SECURITY NUMBER** (now required – this includes children) or **FRN** number.
3. Your **ORIGINAL** amateur radio license (if any) **AND** a **PHOTOCOPY** for the VE Team to keep.
4. The **ORIGINAL** of any relevant **CSCes** you have **AND** a **PHOTOCOPY** for the VE Team to keep.
5. **Cash, Check or Money Order for \$15** (standard ARRL VE Fee). Checks and money orders should be made out to MARC and covers all the different exams you wish to take at the VE session.

MARC VE Team policy, as with many VE Teams, is to not allow same day retests on failed exams.

For already licensed hams, MARC members should be monitoring the MARC repeater system 146.820- or 448.650- (both 107.2 Hz) if you need help with talk-in.
